## SKILLS

---

**Creative:** Figma, Adobe Creative Suite, Photography **Front-End:** HTML, CSS, React.js, JavaScript, Redux, Hooks, Context API, Jest, Cypress, Axios **Back-End:** Node.js, Express, SQL, Git CLI, GitHub, VS Code, Vercel, Heroku, Netlify, Sanity.IO

**Additional:** Agile Project Management, Algorithms, Architecture, Debugging, Deployment, Jira, Trello, Google Research, interpersonal, office technology, MS Office, Social Media

## PROJECTS

---

RPG Text Dungeon, Front End Developer - Free Code Camp Project

- Built out the frame of the text adventure utilizing HTML and styled it with vanilla CSS. Keeping it simple.
- Utilizing Vanilla JS, I coded an adventure to fight a dragon as the end goal. With the ability to buy items, sell items, kill monsters to level up and fight creatures.
- Tested the project to ensure that all functions are working as intended.
- Created a secret easter egg just for fun.

GitHub Usercard, *Front End Developer*

- Accessed the GitHub API utilizing **Axios** to create requests for data
- Developed a social list user card application with Github API and Vanilla Javascript
- Independently configured a visual showcase feature to display user information using HTML & CSS

Web API, *Back End Developer*

- Developed a Web API using Node.JS, Express.JS, server-side routing, and middleware per specifications to ensure API had CRUD functionality for both the `projects` and `actions` elements
- Ensured secure authentication with JWT tokens

Labs Project, *Front End Developer*

- Developed a responsive landing page using React and JavaScript, adhering to design specifications and integrating resource download functionality
- Successfully integrated API into client-side application, utilizing Axios and callback functions to accurately route data to visualizations developed with Plotly

## EDUCATION

---

**BloomTech Institute of Technology**, *Graduate, Endorsement Certificate, Computer Science - Web Development*

- Completed full-stack web development curriculum, and demonstrated mastery of content through weekly assessments
